

THE BLACK SEEDS

AUSTRALIAN TOUR : MARCH 2010

New Zealand's **The Black Seeds** have been well and truly spreading their unique brand of reggae around the globe in recent years with numerous European festival tours, and the successful North American release of *Solid Ground* last year with top U.S label Easy Star Records, supported by a twelve-show tour.

Catch this energetic eight-piece as they return to Australian shores during their first full Australian tour since 2008, when they performed at Golden Plains Festival and a string of other dates. Joining them as support for this tour will be Melbourne's finest exponents of dub/reggae *The Red Eyes* (all dates except Byron Bay). Having just completed a standout performance in January at the Days Like This Festival in Sydney, New Zealand reggae-soul heavyweights *The Black Seeds* are keen to return to Australian shores.

Described by *Clash Magazine* as 'one of the best live reggae acts on the planet', **The Black Seeds** bring the raw energy and good vibes wherever they go with a legendary live show that delivers a boundary-crossing fusion of big-beat funk, dub, soul, afro-beat, mixed with vintage roots-reggae.

The March tour supports the Australian release of latest single 'Love Is a Radiation', off the platinum-selling *Solid Ground*. A new limited edition live album *The Black Seeds Live: Vol 1* will also be available exclusively at the live shows or via their website www.blackseeds.com.

SOLID GROUND – CD AVAILABLE NOW THROUGH INERTIA

'The Black Seeds smashed apart the clouds with some brilliant lighting and a two and a half hour set of reggae madness' - Drum Media, Sydney

'... as marvellous a work of modern reggae as you're likely to find in any corner of the world today' - Niceup.com. (U.S.A)

'There's no beating the old-fashioned lure of a band who have built up a mighty following through sweaty, hard-gigging performances... an immediate appeal to their fresh Pacific grooves... packed with funk, reggae, dub, and good time soul...'
- *The Metro, London*
